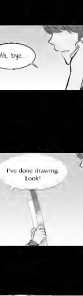
19

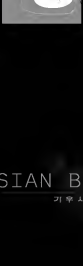
That's why I said I didn't want a second baby.

Stop it. There's nothing we can do now.



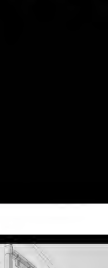
Color pencils? No it's surely crayons. You can see that...

No, it's color pencil!



GAUSSIAN BLUR

가우시안 블러



.....

Are you crazy? A cigarette? You became cheeky after entering high school.
Is that your manner?

So that's why you called me an hedonist. Anyway, here
Thanks

Hm. Do you know that you really do fucking well after an hour's troublesome job

Ah, yeah. You know!
Hm!

I got a boyfriend.

But you are in all-girls.
If I worried, wouldn't I be able to get any info on? You're kinda poor luh...

Anyway, your mom and mine got into fight once again.
Mom's because sure as she had no change communication to see once your mom again.
You know my mom's got bad personality. Your mother's angers are how she could have endure so far.

Hey, sometimes, you can your mother like if it's someone mom. Shard Abel said.

Hmmmm.....

I never told this to anybody but...

I'll confess you some thing..

Huh?

To be sincere, I don't like much my mom

No, before even like or not
I don't even care nor have any feelings.

I just thought it was because we weren't close but I clearly under stood when she got hospitalized after a traffic accident

I did not worry, nor cared at all.

It was just placid..

I know you don't have any empathy.

Its also the same to others. No attachments, no care

How could you live others when you can't even love your mom
Is it?! I so..

This rare is the most difficult examination question for me. Attention toward others or empathy, relationship...
Just where and how could I feel that?

There's no formula or laws like maths, nor can you understand it after memorizing and repeating like memorizing words
I really don't know what we can learn such thing as motherhood, family, friendship or affection that is called between , partners and another, nor how I should feel it.

Others did it as well without even studying
This is a bit abnormal, right? Do I have a mental illness?

Yeah, it sure is strange. It could also be a mental illness.

That's why I'm the only friend she's left to you.

maybe we could have been in "relation".

and even with a lot of Fun. Really enjoying, not boring...

continue
